

ATS 2024 Road Map for Medical Educators

ATS
2024

May 17-22
San Diego

Plan Your Conference With the ATS Section on Medical Education!

The ATS Section on Medical Education (SOME) was established in 2015. It now has over 3000 members and provides great opportunities to network and collaborate with a community of professionals who share similar aspirations and are navigating many of the same challenges often faced by educators. If you want to get more involved with the Section, come to our Business Meeting on Sunday May 21st at 11:45am in in the Marriott Marquis Ballroom D. At this meeting, we will welcome the new members of the SOME Executive Committee, including Dr. Lekshmi Santhosh, the chair elect of the Section on Medical Education.

In addition to programming at the International Conference, SoME offers webinars throughout the year, and supports a mentorship program, awards program, medical education research grant, and many other career development opportunities. Contact one of us if you have ideas for a webinar, symposium, or other programming or projects related to training and education. Beyond this annual meeting, the ATS SoME is your professional home for a career in medical, nursing, or science education.
